## Happening this week

### **A2Z Art Gallery**

Go behind the scenes with cross-disciplinary French artist Ann Grim as she invites you into her studio, sharing her inspirations and insights into her practice. Working primarily with paint, Grim blurs the line between dreams and reality, creating hypothetical worlds that explore the possibility of different faraway futures.

### **Contemporary by Angela Li**

'The Call of the Green' presents works by eight Asia-based artists that examine urbanisation and explore the connection between humans and the natural world. The exhibition title and theme are inspired by Jack London's novel 'The Call of the Wild', which is infused with a longing to be free and return to nature.
