Leung Hoi Nga Livy was born in Hong Kong in 1996, She graduated with the Degree of Bachelor of Visual Arts from the Academy of Visual Arts, Hong Kong Baptist University.

She focuses on drawing, painting and material exploration, these mediums provide her different experiences in making interesting narratives. Mismatched elements in daily life always intrigued Livy to construct a world between reality and her personal fantasy. She recomposes her thoughts towards different incidents happening around her and amplifies her imaginary world as a form of expression and self-indulgence within her art practice.
